Cigars, Sirs, Sirens and Songs!

Be prepared to Swoon - October 16 - DiSalvo's Station Latrobe

FOR IMMEDIATE RELEASE: Greensburg, Pa - Stage Right welcomes Tim Hartman and a host of others to raise money for a new sound system.

Tired of the crackling and popping and all the other annoyances that stop audiences from enjoying a performance, **Stage Right's** fall fundraiser, **Cigars, Sirs, Sirens and Songs**, looks to raise enough money to purchase a new state of the art microphone system for the the company. The event, being held at **DiSalvo's Station in Latrobe**, will feature the multi-talented **Tim Hartman** as the headliner. He will bring his special brand of humor and music to the evening which will also feature other local stars including; **Renata Marino, Elly Noble, Patrick Cannon, Alex Noble, Tony Marino and Lena Gabrielle**. Attendees will be treated to a hearty Italian Hor D'oeuvre Buffet witch will include Bruschetta, Meatballs, Penne Puttanesca, Chicken Marsala and a complimentary glass of wine! Plus there is a fully stocked Cigar bar where patrons can relax and enjoy a stogie.

Aritistic Director Anthony Marino: *"We are just over the moon about Tim helping out. I've loved watching and working with him over the years. You are in for an enormous treat, not to mention the performers who are our 'appetizers'!. Any of those performers could captivate you for a full evening. The evening is going to be filled with music, food, wine, fun and cigars! You will not want to miss it. Plus, the goal is to raise money for a thing we simply can't go without. The cost of renting equipment of the caliber we want is really expensive. This is something that can protect our company from the sort of financial hardships that hurt some performing arts companies."*

To make your reservation for **Cigars, Sirs, Sirens and Song** call **724.832.7464** or visit our website; www.stagerightgreensburg.com. **Tickets are \$40 per person and** the evening begins at 7pm sharp at **DiSalvo's Station in Latrobe**, cocktail attire is suggested.
